1999 Analytical Review DWCCA-2860-PJL

Dear Mrs. Pickel:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1999 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. In our letter July 28, 1999, (copy enclosed) regarding our review of the utility's 1998 annual report, we instructed that an adjustment be made to the plant accounts on page W78 to transfer \$128,416 from Account 311, Structures and Improvements, to Account 314, Wells and Springs. Please explain why those adjustments were not made to the 1999 annual report.
2. During our review, we noted that while the utility reports \$1,071 for Chemicals in Account 630 in the Water Operations & Maintenance schedule on page W-5, there is no water treatment plant data reported on the bottom portion of the Reservoirs, Standpipes & Water Treatment schedule on page W-14. Please provide that data and follow this procedure in the future.
3. During our review, we noted that the \$224 reported on page W-8 for additions during the year for Account 346, Meters is considerably higher than the state wide average for the cost of one 5/8" meter. Please provide a copy of the invoice for that meter.

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please

respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

Peter J. Leege

Division of Water, Compliance, and Consumer Affairs
